1. Overview

The process outlined by this Procedure will meet the minimum requirements to assist the Local Government Association Workers Compensation Scheme (LGAWCS) meet legislative compliance with respect to managing work related injuries under the Return to Work Act 2014 (the Act).

This Procedure will commence following verbal or written notice of an injury from an employee and will operate whilst a return to work process is underway. It may also continue during any period whilst the compensation claim is awaiting determination. This Procedure also provides the ongoing management and provision of suitable employment requirements for work injured employees who are unable to return to their pre-injury job role.

The provision of Return to Work (RTW) services does not affect the claim determination. If a claim is rejected and/or subsequently appealed, the appropriateness of continuing the return to work process will be reviewed by the LGAWCS with the Scheme Member, having regard to individual circumstances. RTW services will be referred to a LGAWCS Return to Work Consultant (RC) wherever there has been 3 days or more of incapacity certified.

Scheme Members are to ensure all staff are aware of their Internal Return to Work Coordinator (IRC) along with the contact details, together with the contact details of the LGAWCS Claims / Return to Work Consultant (RC) – refer to Appendix F. To satisfy legislative requirements all Scheme Members are to have an IRC, whose role coordinates with that of the LGAWCS RC and this procedure should be easily accessible to all staff.
